**Important: attach short resume or C.V.**

Selection of participants will be based on the following criteria: professional experience and training; willingness to serve as a volunteer responder; experience in disaster response. The selection committee will also seek to select a balanced group based on: mix of conservators and other professionals; institutional and private practice conservators; specialty areas; geography; number of registrants from a single organization.

1. Please describe any experience or training you have had related to emergency preparation, response, and recovery (including any ICS, CERT, First Aid, or similar classes)

2. Please describe your ability to serve as a volunteer responder for future emergencies affecting cultural property, including your ability to take time off from work to assist with a disaster situation. (If employed, please attach a statement from appropriate individual from your institution that you have permission to assist with disaster response. Please note, there is no expectation that you would cut your vacation short or put a work deadline – such as an exhibit opening -- ahead of a disaster response.)

3. Please describe your connections to the Iowa cultural preservation world – how might you be an “ambassador” for Iowa-CERT and emergency response for cultural collections?

4. Please note that, if accepted, you will be required to complete the online Basic Incident Command System (ICS 100) online training prior to taking this workshop:  
<http://training.fema.gov/EMIWeb/IS/courseOverview.aspx?code=IS-100.b>
